

Shaping Lives, Creating Identities, Transforming Futures

This is a tribute to two noble souls, who through the systems they shaped and transparent processes they upheld, built a foundation of trust and lasting transformation. Their quiet, steadfast faith in education as a force for change is a legacy that continues to illuminate our path, even in their absence.

Periyavar CA G.Ranganathan
Chartered Accountant,
G.R & Co.,
Salem.

Padma Shri CA T.N.Manoharan
Former Chairman,
Canara Bank & IDBI Bank,
Chennai.

Message from Founder

Mugavari began with a promise I made over two decades ago. It was a promise to give my time, and sincere effort, moving with the flow consistently, without worrying about end results. This was because I believed in the power of process.

Fortwenty-three years, I have invested in this journey, trusting the process, nurturing Mugavari to grow into the organization it is today. Now, I see the quiet testimony of my commitment – an entity I built, as best as I could. What is important is the fact that I never had to walk this path alone. Countless people have walked with me – with their monetary support, goodwill, advice, and confidence in what I was trying to build. Their presence & unstinting support have shaped Mugavari in ways I deeply cherish. I therefore lay this humbly before all these people who have been with me.

With a background in accountancy and the underlying ethical practices and core values that I imbibed through my association with them, I feel a deep sense of connectedness with these two individuals who are no longer with us. They have left an imprint so profound that I wish to dedicate this to them.

To **Periyavar CA G.Ranganathan**,

our guru and mentor whose blessings I continue to feel. It was Periyavar, who first planted the seed of integrity in my mind – an ideal he wished us to achieve. Mugavari, he said, must always be an organization defined by its systems and integrity. We are proud to say that we continue to uphold his ideals in every sphere.

And to **Padma Shri CA T. N.Manoharan**,

our visionary leader who backed his words with prompt action. He believed that Mugavari must become a recognized brand – and grow into a systems-driven organization, with global standards. He considered Mugavari his own & never hesitated to reach out on our behalf – for this, I remain deeply grateful. He has left behind a strong network that continues to support us.

Both these extraordinary individuals – disciplined luminaries in their profession – continue to be with Mugavari guiding us in thoughts and actions. We hold their ethics and systems non-negotiable, with transparency as our core value. This is yet another pivotal initiative in the long line of accomplishments by Mugavari. I believe that this will steadily evolve into a wide-ranging chronicle that brings to every person who reads this, a sense of belonging and gratitude – our lasting principles.

My promise continues, with the steadfast support of the Mugavari family. As we move forward crafting spaces for participation and empowerment, we look forward to your continued support and guidance. I welcome you to walk with us on this Yatra as we enter the next phase of our sustainable commitment.

With hope...

(K.Ramesh)

12.03.2026

Mugavari: Built on Gratitude, Sustained by Transparency

Mugavari Foundation is a trusted voluntary organization that empowers underprivileged students to pursue higher education as a pathway to shaping their identities. We believe that an appropriate and conducive environment will further strengthen our mission of creating global citizens, committed to nurturing each other and others as well.

Connecting empathetic donors with those in need, ensures that the spirit of gratitude stays alive, becoming meaningful to every stakeholder who connects with the organization.

Gratitude as a building block is complemented by Mugavari's well-oiled systems where transparency

is the core. Our entire focus lies on transforming our beneficiaries, celebrating their successes rather than focusing on their limitations.

Every rupee that has found its way into the organization has been recorded and put to use in the most beneficial manner.

The Education Journey: From One Student to a Movement

Looking back on 23 years, Mugavari continues to grow steadily stronger despite many roadblocks. When the founder first sought funds for a single student, establishing a trust was not on his mind. But that first success lit the way forward. Matching donor support with student needs became a powerful model, eventually leading to Mugavari Foundation.

While higher education and career readiness remained the focus, the deeper goal was to find a way to instil key values - gratitude & empathy, at a much earlier age. The natural outcome?

The **M-CORE: Mugavari – Centre for Opportunities, Readiness and Empowerment** – of which the **School of Mugavari** is the cornerstone.

It is important to understand the rationale behind the creation of M-CORE. Mugavari Foundation, in its efforts to give back to the community, believes that there must be a level playing field for every stakeholder.

Furthermore, this integrated facility will give every Mugavarian the opportunity to interact, contribute, and be actively involved in community building.

From Beneficiaries to Changemakers: Leading with Intent

What sets Mugavari Foundation apart is its deep-seated belief in **Student Agency** – the ability of beneficiaries to shape their own paths and then pay it forward. This self-driven involvement is what we proudly call the **M Factor – the Mugavari Factor** – where beneficiaries are encouraged to lead from within by setting personal goals, mentoring peers, and growing through **gratitude, networking, and leadership**. An offshoot of this factor is the sense of belonging that every beneficiary develops, providing an edge to evolve confidently in their professional, personal & social spaces.

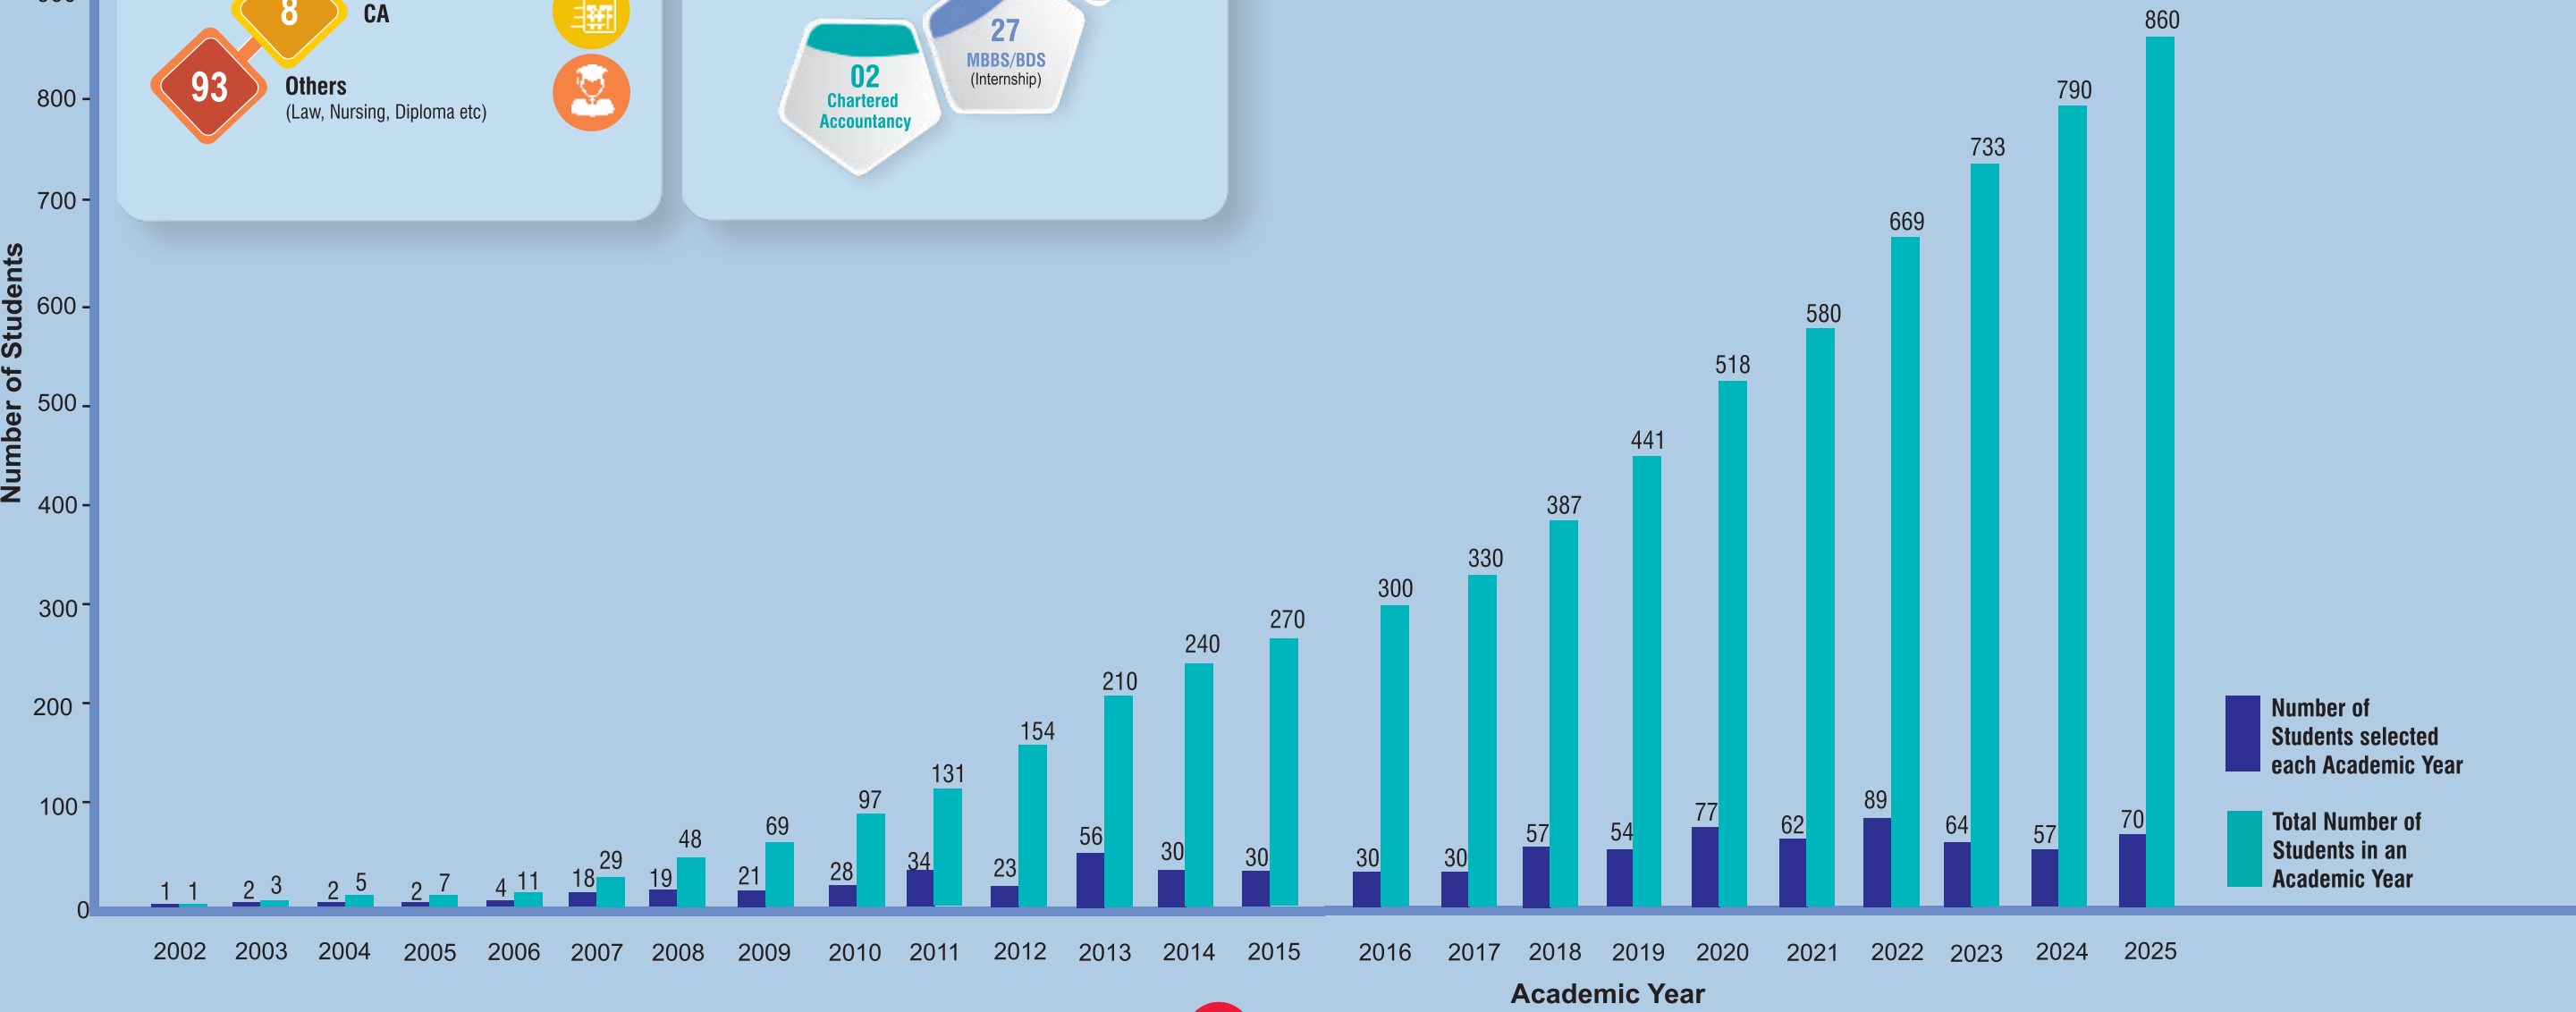

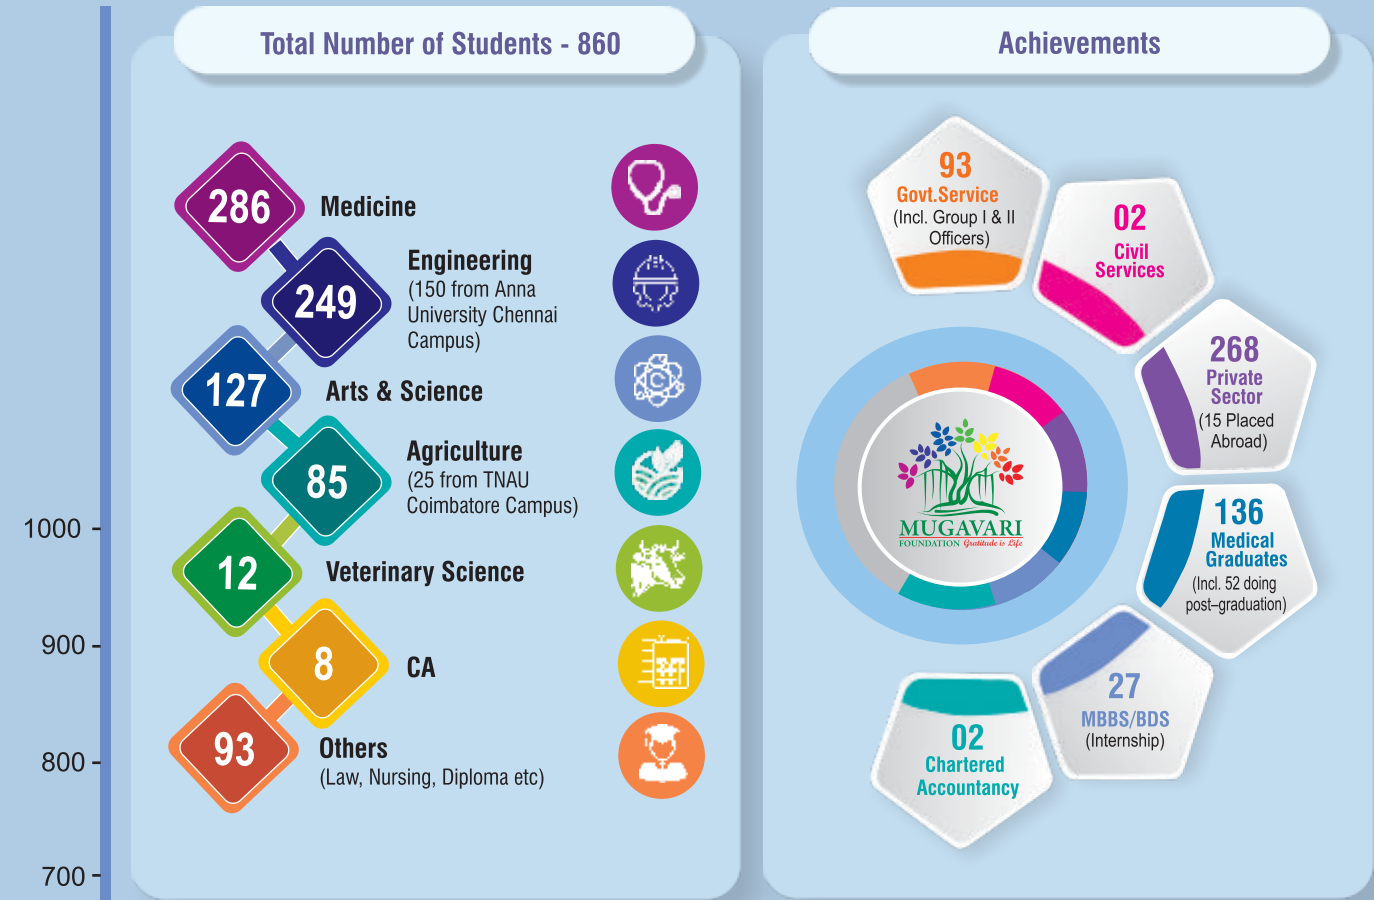

Today, the growing presence of doctors, engineers, government servants, lawyers, auditors, and

professionals across fields reflects the power of Mugavari's enduring support and shared purpose.

The contribution to the wellbeing of civil society has been highlighted through the enhanced number of students who have become government servants; this is a clear indication of how Mugavari's students contribute to the nation building process.

Internally, the responsibilities that are shared through the establishment of various student organizations give students the invaluable skills required to form, manage and operate teams with discipline & leadership. This is a life skill that prepares them to succeed in their individual paths.

Snapshots of Success: The Impact of Opportunity...

Since its inception, Mugavari's objective to help students continue their education has resulted in 860 students pursuing their graduation in medicine, engineering, civil services, and other courses.

These students earned admissions to prestigious institutions like AIIMS, JIPMER, PGIMER, IIT, ICAR, and ICAI, reaffirming Mugavari's commitment to identifying and nurturing deserving talent.

23
YEARS
2002 - 2025

Mugavari Foundation
The Journey that began in 2002, continues...

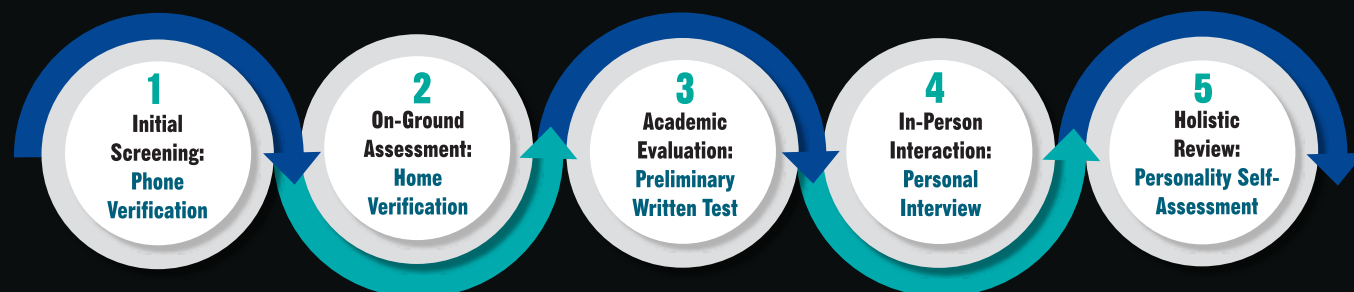

Empowering the Most Deserving: Our Selection Process

Trained in critical thinking and consensus approach techniques, Mugavari's beneficiaries now lead the student selection process. They form transparent, peer-driven committees that screen, verify, and assess candidates from government schools, often first-generation graduates from disadvantaged, rural & semi-urban backgrounds. Most potential candidates lack

parental support and, as a result, have little or no guidance on educational or career opportunities.

This democratic process of selection reflects Mugavari's deeper vision – where those who once received support now serve as gatekeepers of opportunity, carrying forward the spirit of transformation.

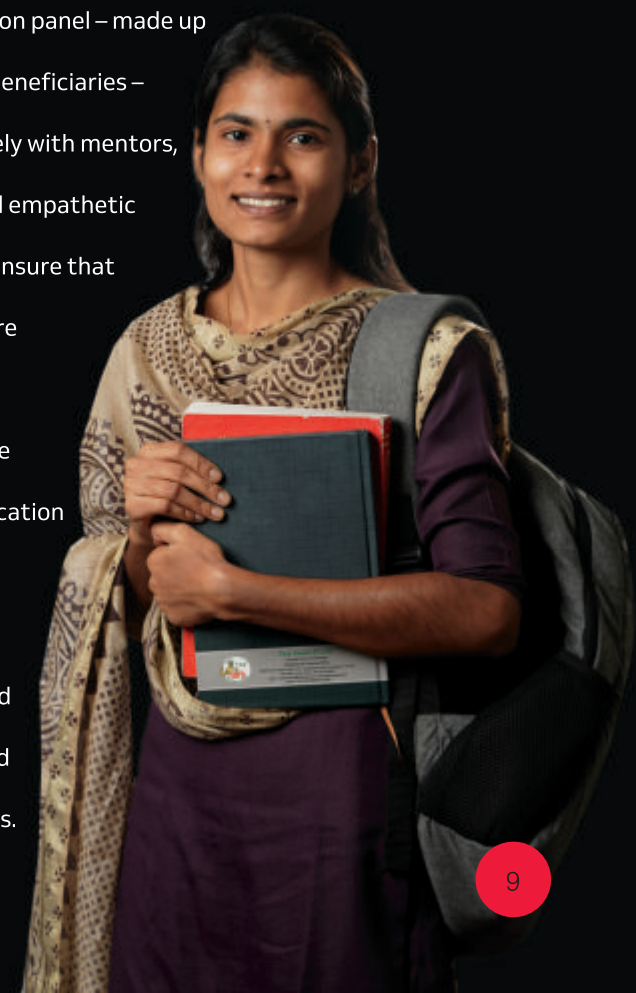

Choosing with Care: A Lesson in Critical Thinking & Decision Making

Mugavari's selection process is rooted in data-backed insights and a deep sense of fair-mindedness. Two vital checkpoints define this process: the home visit and the final interview.

During the home visit, selectors acquire firsthand understanding of the student's economic and social context. It is more than just a meeting – it is a complete and heartfelt understanding of the realities of the backgrounds of potential beneficiaries. Along with this understanding and the final interview, selectors are able to think through the selection process critically, making decisions that are life changing for beneficiaries and for themselves as well.

The selection panel – made up of former beneficiaries – works closely with mentors, alumni, and empathetic donors to ensure that students are supported through the higher education process to achieve realistic and well defined career goals.

Peer Impact: Growing Together as Catalysts of Change

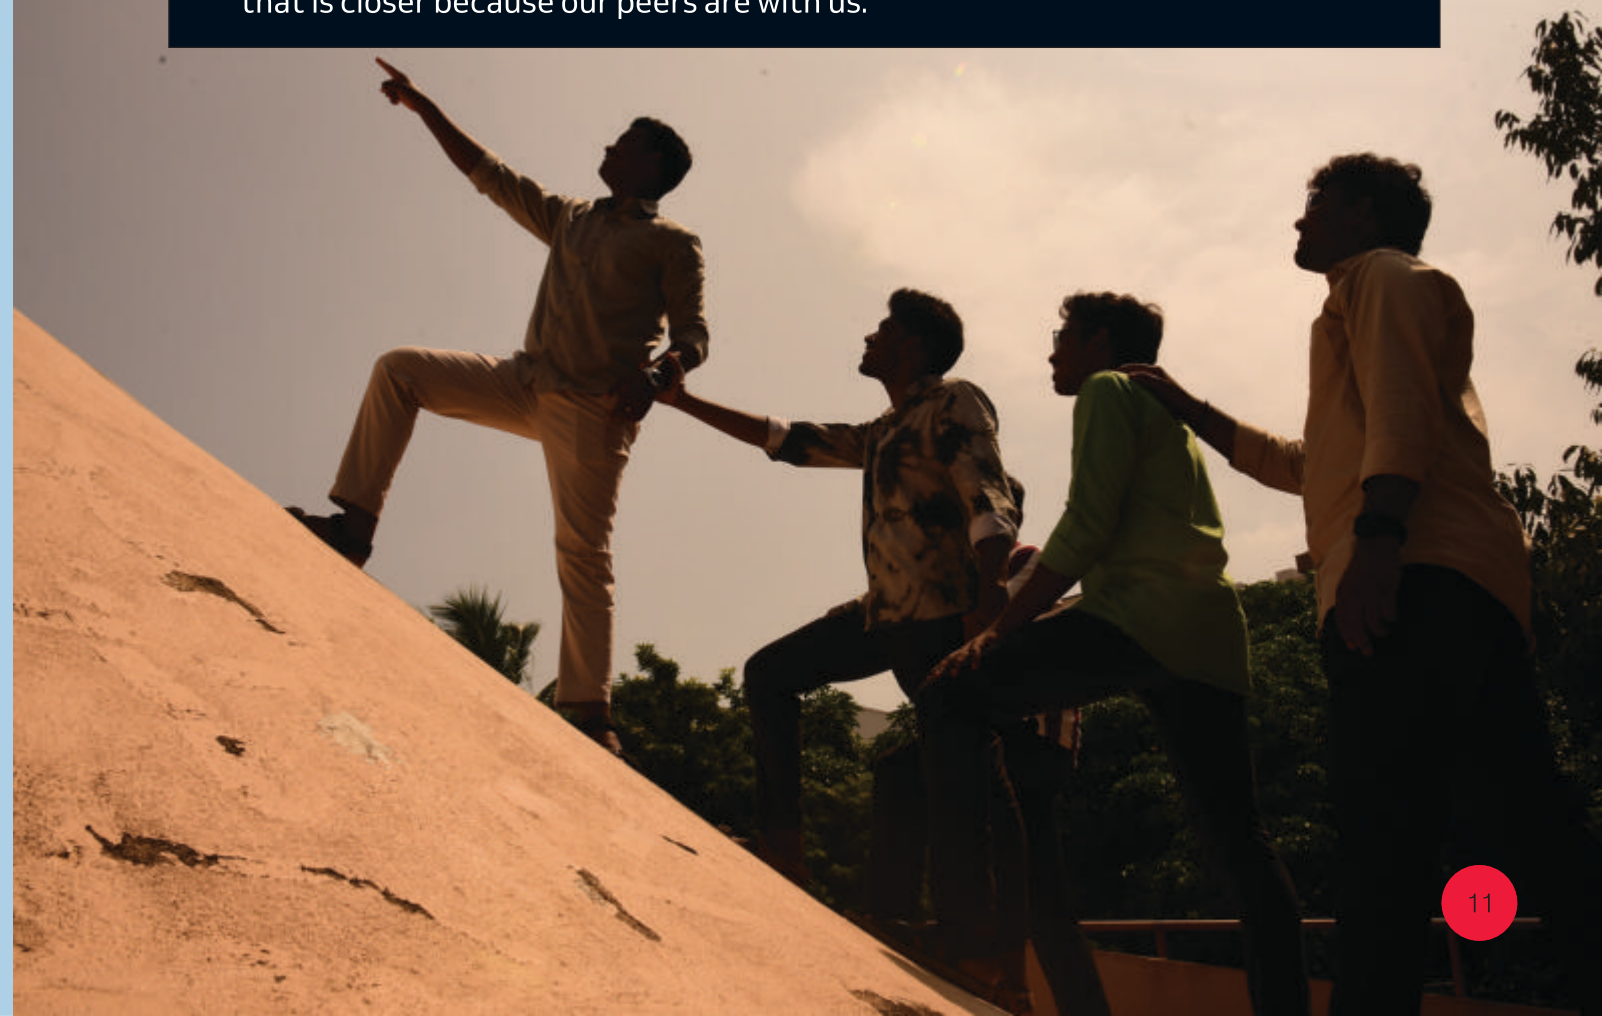

Becoming a changemaker is neither simple nor predictable. For Mugavari's beneficiaries, returning to contribute isn't an obligation – it's a conscious and heartfelt choice to propel the movement forward.

Many have taken on vital roles, especially during the pandemic, when Mugavari-supported doctors rose to the occasion and earned national recognition. Since then, alumni from diverse fields have stepped up to mentor aspiring students.

This growing **peer network** fuels varied academic and career paths, while staying anchored to a common goal: to pass on the support they once received.

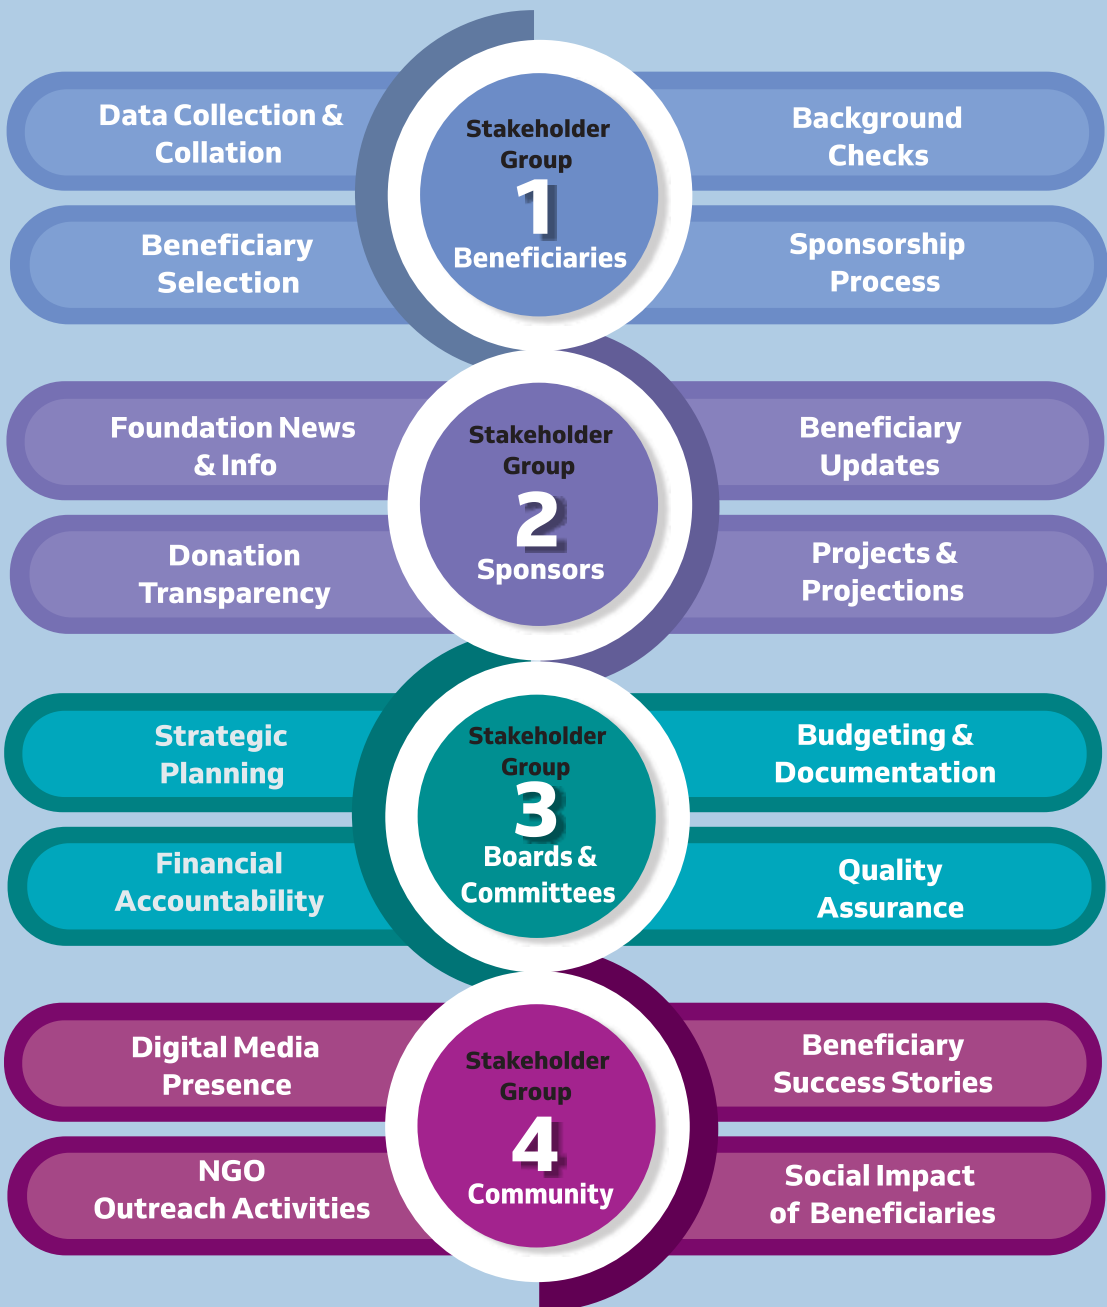

Every climb is achievable when we are sustained and guided by those who walk with us – leading us every step of the way, towards a dream, a goal, a destination that is closer because our peers are with us.

The Mugavari Framework: Where Gratitude Meets Governance

At Mugavari, every element of operations follows a well-researched and adaptive system. Stakeholder needs are factored into the ideation, planning, implementation, and sustainability of all operations. This becomes a well-oiled structure that has built-in checks and balances that examine and remediate without loss of time and resources.

This self-reliant and reflective approach has helped evolve this 23-year old Foundation, which is built on gratitude, purposefully creating opportunities for everyone who seeks to learn. We believe that our proposed integrated facility will be the culmination of a dream for every stakeholder group.

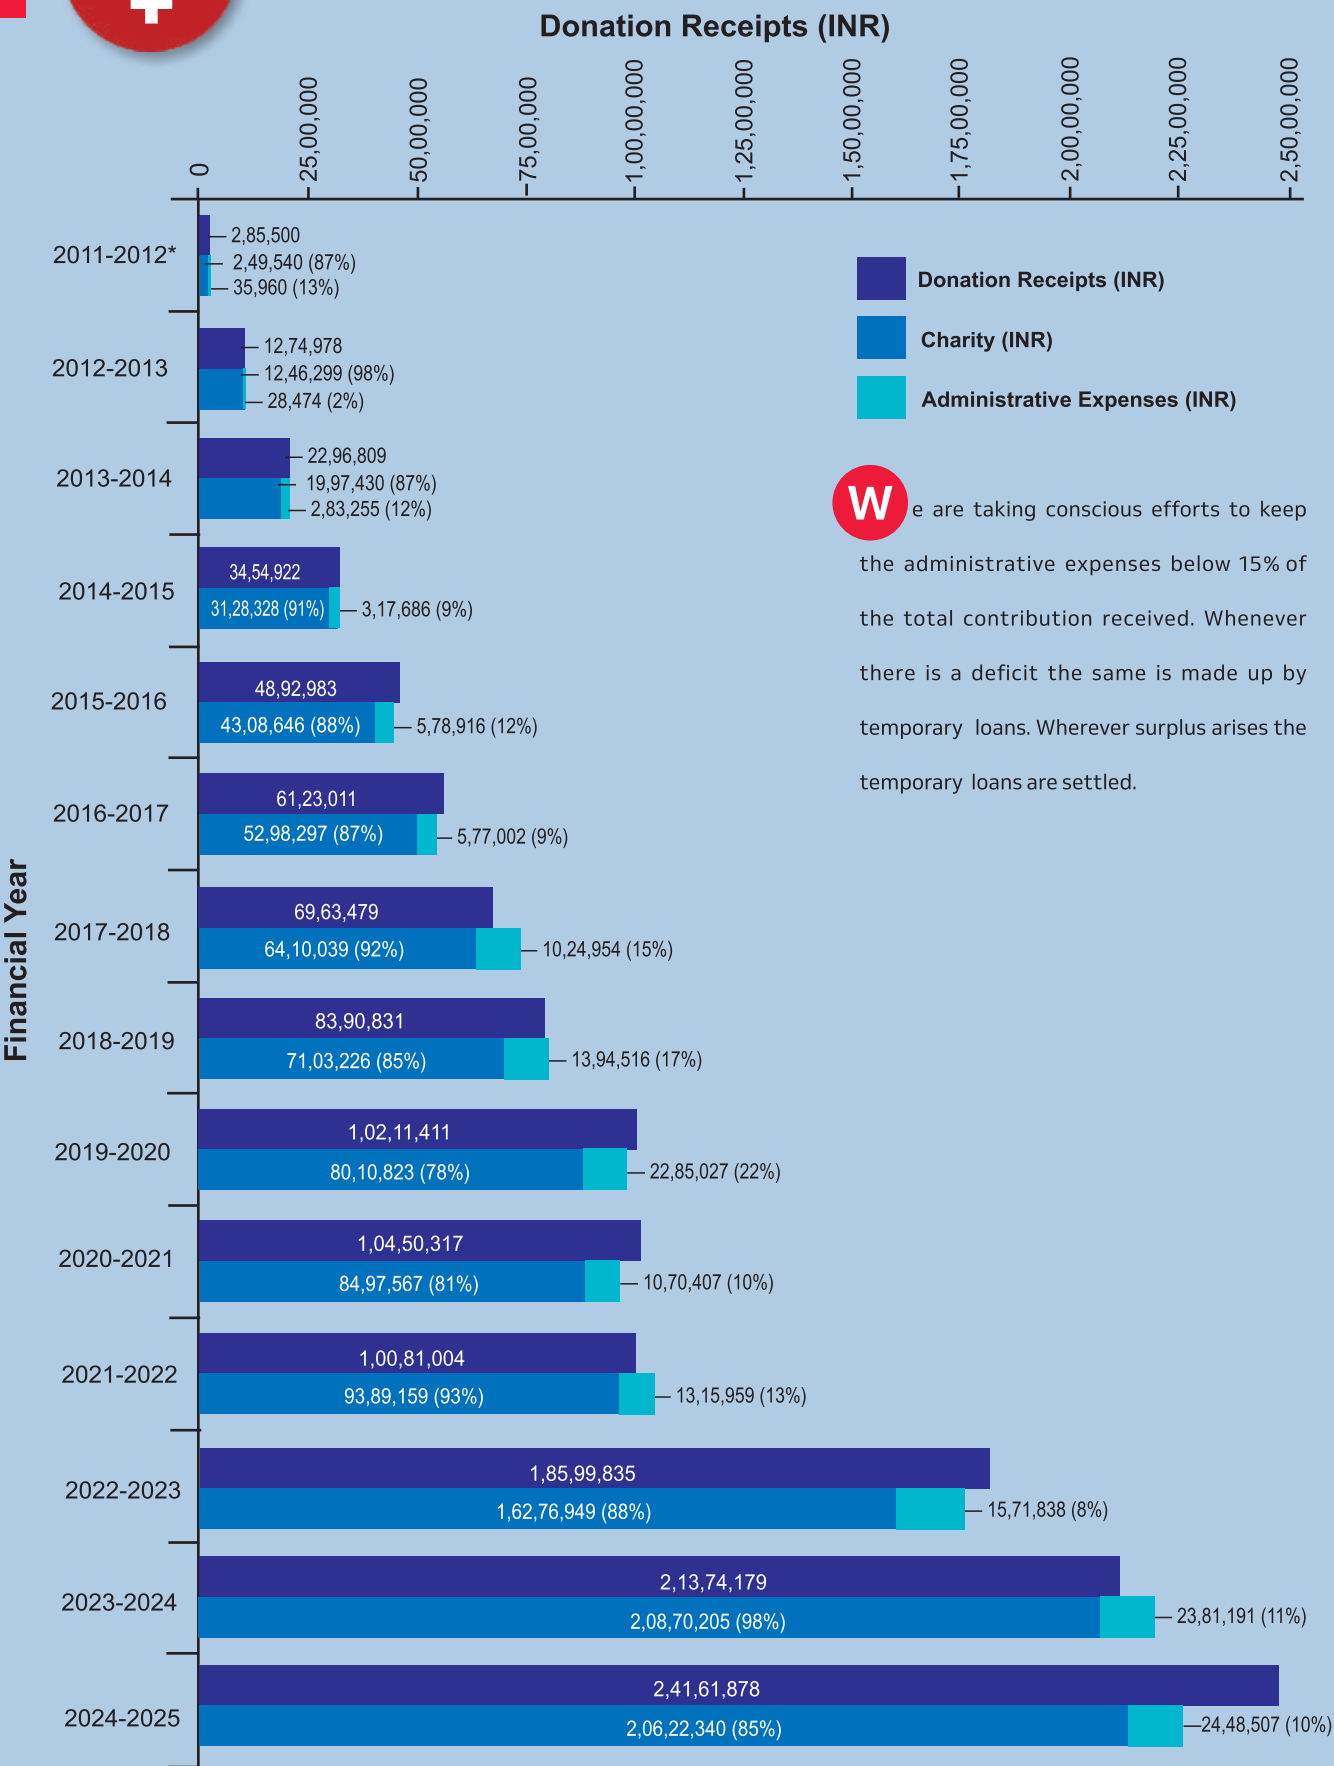

Next Level Accountability: Continuous Monetary Management

Built on trust and shared beliefs, the Trustees and Board bring in funding organically, without the need for promotional campaigns or advertising.

Impactful Associations...

* Mugavari began its journey in 2002, but the trust was formally established in 2011. Until then, donors contributed directly to beneficiaries or educational institutions.

Financial Transparency: Tracking Every Rupee Received

Tracking money can often be a painstaking process that needs a lot of tact and care. It was Periyavar CA G.Ranganathan who instituted meticulous financial and accounting practices, which we continue to follow, guided by his blessings from above.

At Mugavari, we work with a deep-rooted sense of accountability that is clinical and professional. Individual donations primarily form the fulcrum on which academic pursuits depend, coupled with CSR Funds.

At Mugavari, we do our best to ensure that every contributor realizes that their money has funded a just cause, reaching a beneficiary at the right time.

G.Ranganathan

Today CA R.Suresh is our mentor and guide, ensuring that Periyavar's practices continue to be in place. It is with his focused guidance, that we are blessed to uphold Periyavar's legacy. Without the sustained support of G.R & Co., we would never have been able to consolidate our position as a credible organization.

Based on the vision of Padma Shri CA T.N.Manoharan, the Freemasons instituted a sustainable project that ensures support for Mugavari. This continues to bring hope and opportunity to students, reaffirming the solidarity it has with Mugavari in its commitment to serve its beneficiaries.

From a Founder's Dream to Collective Impact: The Mugavari Evolution

While envisioning Mugavari, the Founder provided direction and focused on building systems and processes that would become robust and independent of individuals at any specific point in time. This transition – from personal initiative to institutional structure – was intentional, organic, and outcome-driven.

This trust and structure set the stage for Mugavari's next step: **M-CORE** & the soul of this integrated facility: the **School of Mugavari**.

“Education is about empowerment, about cultivating a human being to the highest possible potential – a tool for fulfilling the immensity of Being.” - Sadhguru

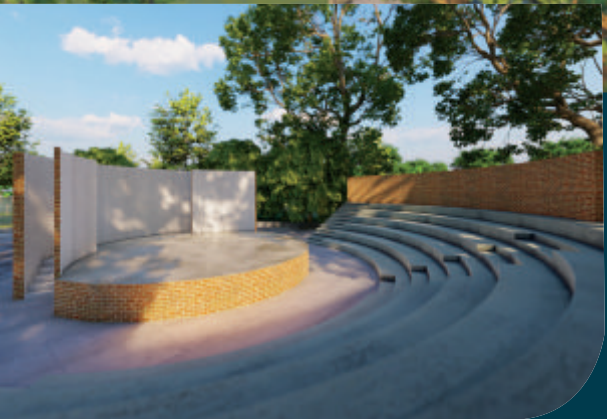

With your continued support, we aim to create this transformational arena. **M-CORE: Mugavari – Centre for Opportunities, Readiness and Empowerment**, will contribute to the betterment of society at large.

School of Mugavari: Creating an Inclusive Learning Space

Aligned with the National Curriculum Framework, the School of Mugavari integrates future-ready knowledge with traditional learning systems, reflecting the CBSE curriculum in both letter and spirit. Our pledge is to offer quality education to students, irrespective of their varied social and economic backgrounds.

From the early years onward, education is thoughtfully designed to awaken capability, character, and awareness – ensuring a connectedness with cultural roots while enabling children to grow into responsible, globally conscious individuals through academics, vocational learning, and the arts.

Centres of Excellence: Sustainability & Engagement

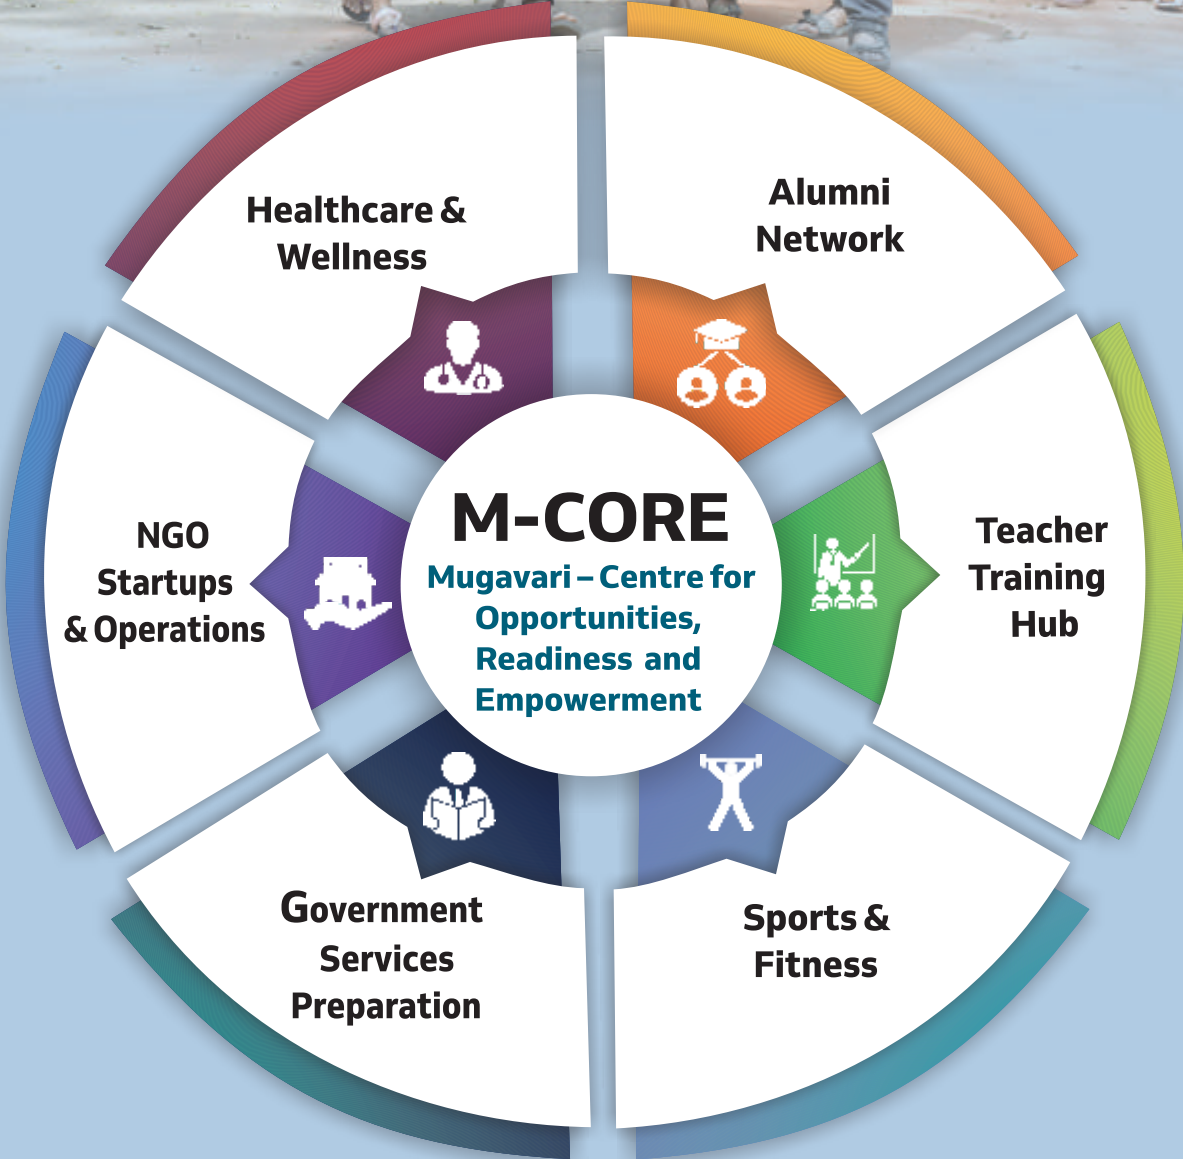

Sustainability is as integral as Community Engagement – at Mugavari, we believe that this non-negotiable element spurs growth, provides ample opportunities for community engagement and builds inclusive models that are impactful and goal-driven.

With education as the focus of all future plans, the Foundation has always been keenly aware of the need for quality in every aspect. The idea is to provide an all-inclusive platform that is totally quality driven, providing ample opportunities for the training of teachers (internal & external) and also explore further community engagement initiatives. These are some of

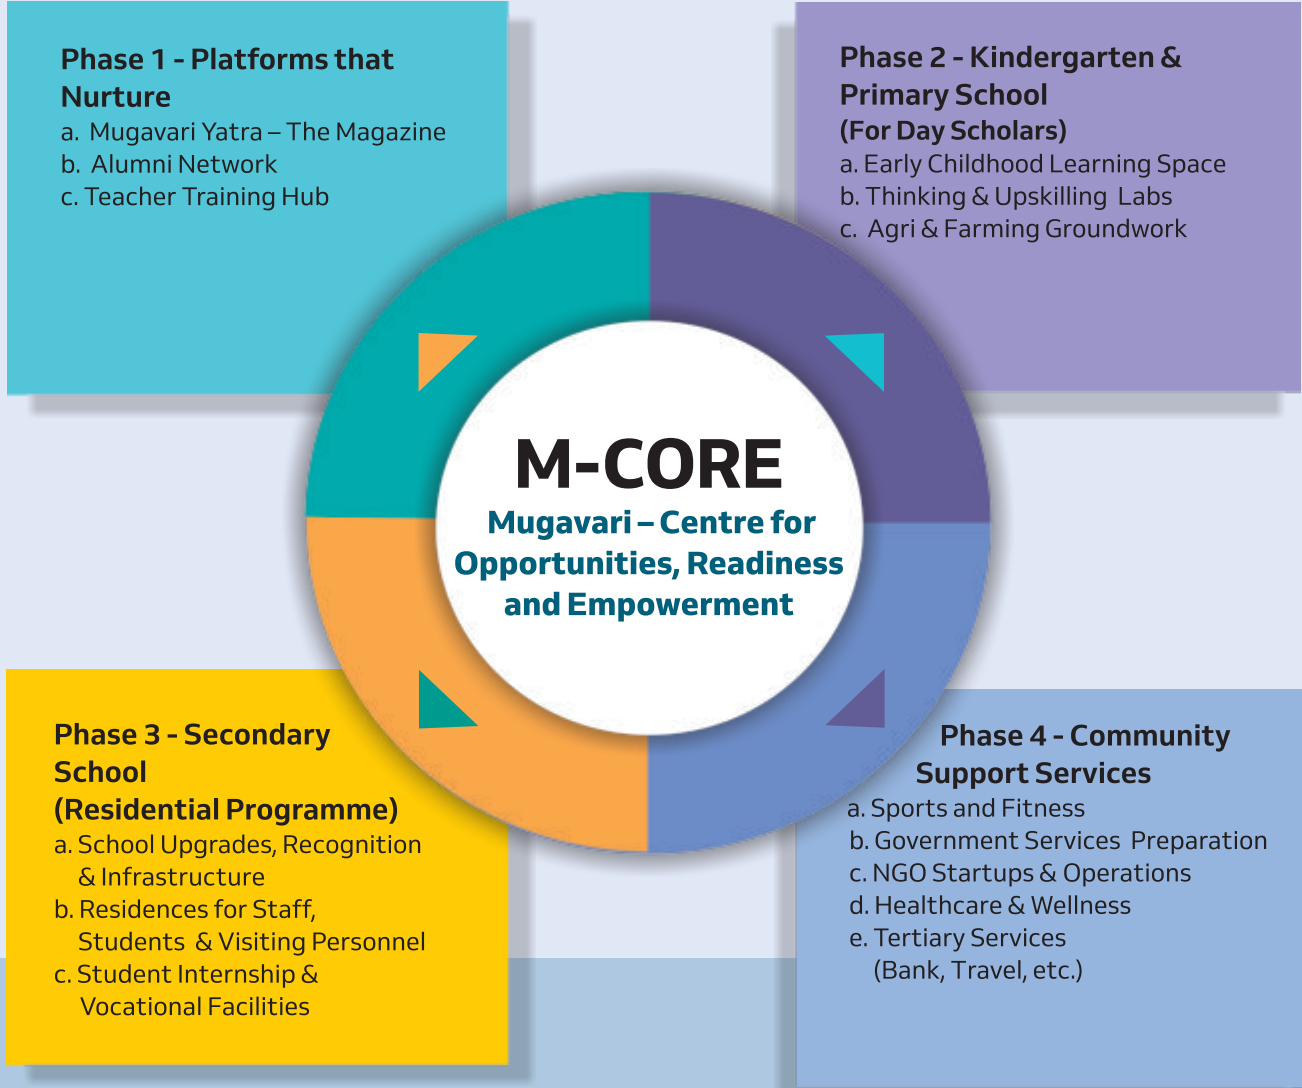

the services that Mugavari will focus on; catering to multiple age groups, giving them ample scope to explore and benefit from the Foundation's collective expertise and experience:

- ▶ Alumni Network
- ▶ Government Services Preparation
- ▶ Teacher Training Hub
- ▶ NGO Startups & Operations
- ▶ Sports and Fitness
- ▶ Healthcare & Wellness

Bringing all these facilities on board will be done in a phased manner, ensuring continued sustainability through strategic planning and a result oriented approach to organizational development.

M-CORE: An Integrated Knowledge Ecosystem

The whole school will work towards steadily improving the strength of disadvantaged children enrolled in every grade of the school. With this as the focus, enrollment of the underserved will touch at least 50% of the total strength within the first decade of operation.

It is the underpinning thought at Mugavari that the school draws from the strengths of the community support services offered, creating a synergy that every learner feels. We believe that community outreach is truly meaningful only when it becomes an integral way of life.

Trustees: Our Architects of Impact

K. Ramesh
Chief Functionary,
Mugavari Foundation,
Chennai.

D. Sundaramoorthy
Chairman,
Vavi People Hospital,
Vavipalayam, Tiruppur.

M. Sangeetha
Executive Director,
Acacia Homess,
Chennai.

R. Sumathi
Principal Quality Manager,
Nokia Pvt. Ltd.,
Chennai.

The Heart & Soul of Mugavari Foundation

The Founder's dream and vision continues to turn into reality with the unstinting support of the trustees who come from diverse backgrounds. With a sense of purpose and determination, their expertise shapes and nurtures the organization, giving more than just a ray of hope to young men and women who aspire to succeed and rise above their economic and social constraints.

M. Vetrivel
Superintendent, Govt. Regulated
Market, Thondamuthur,
Coimbatore.

Dr. K. Santhiya
Senior Resident,
AIIMS,
New Delhi.

A New Dimension in Democratic Participation

By inducting former beneficiaries as trustees, Mugavari Foundation strengthens its commitment to empowerment. These student-turned-trustees represent the Foundation's vision – learning from the best and stepping up to lead with commitment.

Visionary Leaders: Pillars of Purpose, Forging Pathways for Tomorrow

Saidai Duraisamy
Former Mayor,
Greater Chennai Corporation,
Chennai.

A.R. Murugadoss
Film Director,
Chennai.

Mugavari's Towers of Strength

The continuous backing of each of these stalwarts for a decade & counting, has laid a strong foundation. Championing education outreach and initiating student sponsorship have helped enhance the credibility that Mugavari has earned over the years.

T.K. Rajendran IPS
Former DGP (Law & Order),
Govt. of Tamil Nadu,
Chennai.

Dr.V. Nandakumar IRS
Commissioner of Income Tax
(Exemptions) - Ministry of
Finance, Ahmedabad.

A. Shanmugasundaram IAS
Secretary, Tamil Nadu State
Election Commission,
Chennai.

True to their Service

With an ethical approach, these highly regarded civil servants inspire beneficiaries, as living role models, bringing clarity, confidence and direction. Leading by example, they ensure that the Foundation follows a moral compass with skill and ease.

Visionary Leaders: Pillars of Purpose, Forging Pathways for Tomorrow

Life Skills Mentoring for Real – World Readiness

With their rich experience, this group of mentors focuses on nurturing life, social skills & emotional well-being. By challenging stereotypes and broadening perspectives, they motivate students to think independently, build resilience, and develop emotional intelligence to build meaningful careers.

Executive Committee: Student Agency in Action

These seven individuals, once beneficiaries of Mugavari, now form its Executive Committee, ensuring accountability and transparency at every level. Currently, they are in a phase of active learning, equipping themselves with the skills and insights needed to take on greater responsibilities. As they prepare to step into more challenging roles, they remain committed to upholding the Foundation's values and empowering many more like them.

The Executive Committee of Mugavari stands as a testament to the core value of Student Agency – strengthening the network from within.

Vanavil—a unique initiative that embodies the spirit of giving back from Mugavari beneficiaries – has been growing steadily. Today, Vanavil supports the launch of a magazine, **Mugavari Yatra**, bringing multiple stakeholder groups together. This is a step towards integrating sustainability into the organization, in a tangible and scalable manner.

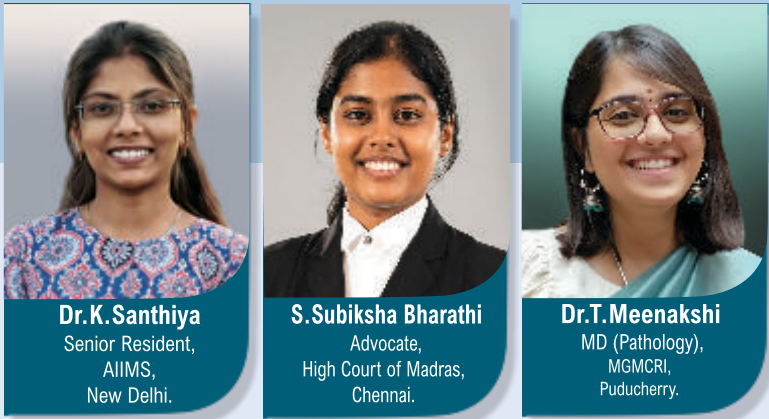

This magazine is envisioned as a futuristic platform that welcomes representations from various segments of the education ecosystem. The vision is to make this magazine widely accessible, carrying quality content that can connect, inspire and serve as the best form of outreach.

The Mugavari Continuum: Grooming the Next Line of Leadership

Icons of Mugavari

When these young individuals began their journeys with Mugavari, long-term association wasn't a conscious plan. Today, they are representatives of a long & committed line of Mugavarians, waiting to contribute. The impacts they have created in their individual circles have made them icons to look up to.

Future of Mugavari

It would be right to say that these individuals have grown along with the Foundation, learning and leading as a natural process. Guided by the Trustees and advisors across multiple segments, they represent the next generation of administrators. This intentional nurturing of leadership and dedication to structured continuity is the key differentiator – the element that sets Mugavari apart.

Leadership & Legacy: Within the Mugavari Family

To ensure that the true essence and soul of Mugavari is upheld, young members of the team are thoughtfully mentored, allowing values to be absorbed naturally and growth to take root over time. With a thorough understanding of the journey that has brought Mugavari this far, they learn to develop the many facets of the organization.

Our Bond: We have created an invisible yet tangible bond with all our stakeholders that goes beyond just financial help. It is a bond that speaks of the commitment of every social minded person who becomes an integral part of Mugavari. For the Foundation, it is a commitment to honour & record the contributions of those who have upheld us, for years to come.

Our Call: Come, be a part of this journey – be a changemaker! This is a dream that has been in the making for the last 23 years – a dream that has brought together people from every imaginable walk of life.

Our Yatra is Underway – Walk With Us!

Each person's identity blends and merges to form the Mugavari brand of excellence. Travelling with this philanthropic outlook will be the most sustainable way to be part of this visionary journey that Mugavari has chosen.

Mugavari Ramesh is a role model in public service. He is indeed a silent hero in rendering community service. I am very happy that he has, over more than two decades, built a remarkable organization viz., Mugavari Foundation, brick by brick with hard work and remarkable dedication. Mugavari Foundation has helped more than 860 students – students from poor economic circumstances – by financially supporting them in higher education courses and placing them in government and private sectors. This presentation gives a perfect profile of the Foundation's tireless services to the community, transparently. I sincerely hope that given his extraordinary commitment to community welfare, the Mugavari Foundation will become a well recognised public service organization, nationally and internationally. I would appeal to all fellow citizens to join this great and unique movement, viz., Mugavari Foundation, and contribute liberally to realise the goals and aspirations of Mugavari Ramesh and his team.

Shri T.S. Krishnamurthy
Former Chief Election Commissioner of India

MUGAVARI – THE ORIGIN (2002 – 2006)

- The promise of support (19.03.2002)
